Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Interview Summary

A personal interview was held on August 29, 2007. Proposed amendments to specific claims were discussed, but allowability of the amended claims could not be discussed considering, inter alia, the current Examiner did not do any of the previous Office actions. Examiner agreed that certain claims had been allowed in the previous Office action, but the allowability of these claims could of course be subject to withdrawal upon examination by the present, new Examiner.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-4, 6, 7, 20, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Sondrup (6,269,495).

Sondrup discloses a drain comprising:

Claim 1 - a drain body (18, 20) defining a drain cavity (22);

a frame (14 and se) having a securable end (se) received by said drain body and an exposed end (ee), said frame being rotatable relative to said drain body for adjusting the position of said frame exposed end;

a clamp (16, 24) for fixing said securable end of said frame to said drain body; and

a grate (12) received by said exposed end of said frame, wherein said drain body comprises a ledge (18a) having a sloped surface, said frame securable end slidably engaging said surface of said sloped surface of said ledge when said frame is rotated relative to said drain body.

Claims 2 and 21 – The frame securable end is circular.

Claims 3, 4, and 20 – The frame exposed end may have any shape (col. 4, lines 32 and 33).

Claim 6 – The frame exposed end comprises a seat (s), said grate being fixed to said seat.

Claim 7 – the clamp comprises a clamp body having a protrusion (p) for clamping said frame securable end to said drain body.

Annotated Fig. 1 (U.S. Pat. 6,269,495)

Claim Rejections - 35 USC § 103

Claims 11-16, 19 and 22 - are rejected under 35 U.S.C. 103(a) as being unpatentable over Sondrup.

Claims 11-16 - are an obvious method of using the drain of Sondrup.

Claim 19 - Sondrup discloses all the claimed elements as described above, including the clamp body comprising a drain body engaging surface (sur)

providing a gap (g) between a portion of the drain body engaging surface and the drain body. The "sloped" limitation is considered a matter of design choice, as Applicant's specification gives the sole purpose of such slope as providing "a circular or annular surface along which the frame may be rotated", the equivalent Sondrup surfaces providing the same function equally well.

Allowable Subject Matter

Claims 8, 9, and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dan Kenny whose telephone number is (571) 272-9951. The examiner can normally be reached on Monday thru Friday, 9 am to 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Chilcot can be reached on (571) 272-6777
